TAWSIF HAQUE

Software Engineer

SUMMARY

Creative, detail-oriented, software engineer with a deep interest in AI. Proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100devs, Los Angeles, CA

October 2020 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

YelpCamp (Fullstack Web App) – Users can view other users' campgrounds, add reviews, create, update and delete their own campgrounds. This app is a collection of campgrounds for people to gain information about other people's camps should they wish to camp there.

Expense Tracker (Fullstack Web App) – Users can login to their profile and find their list of expenses. They can add new expenses through an input, which they can then edit or delete all notes in their profile.

Other Projects: Daily Motivation Quotes for Champions with tweet functionality, StarGazers Society APOD Web App with NASA API integration, On Demand Weather Information based on location with weather API integration and many more.

Full Stack Web Developer at TawRay's Consulting | Dhaka, Bangladesh

January 2020 — Present

Created full stack web applications and static websites for different clients across small and medium size businesses. Also, consulted on SEO, copy, and social media strategy. Client(s) included:

Rayhan Farhan – **rfarhan638@gmail.com** | **+8801717897777**

Open Source Contributor | Zero To Mastery

January 2021 — Present

Contributed to Open Source Projects. Refactor and optimisation according to best practices to make code more reusable and easier to understand.

Some projects I have contributed on:

- Travel Guide,
- Keiko-Corp,
- PokeSearch
